San Jacinto College Department of Theatre and Film
Presents

Theatre San Jacinto

SJCC department of theatre and film is one of the most dynamic and extensive community college programs in Texas. We produce graduates who are sought by universities for both their performance and technical skills.

The department is unique in that it is the only program of its kind in Texas that combines both theatre and film courses in all degrees and in its season of productions.

The program produces five to seven productions each season, and gives all students many opportunities to perform, design, direct, and write for their production season.

The instructors are professionals who remain active as performers, adjudicators, and teachers on the local, state, and national arena.

Theatre study at SJCC is a clear choice for persons focused on a career in theatre performance, theatre education, and/or technical theatre. In addition, we offer training in film performance and production.

Limited scholarships are available each year based on those who apply.
